

Open Position Acknowledgement Agreement

I _____, the undersigned customer, hereby acknowledge that I have been thoroughly advised by _____, my account manager or system provider, that I will be unable to either liquidate positions in my account or add equity to my account while there are open positions in my account. I understand and acknowledge that my account is being traded on either on a limited power of attorney or under a letter of direction and that my account is being traded as part of a percent allocation methodology (PAMM) whereby the allocation of profit and/or loss in my account is derived from the ratio that the equity in my account bears to the total equity in the master PAMM account. I understand and acknowledge that I will only be able to withdraw equity from or add equity to my account if and when the master PAMM account is flat. I further acknowledge that should an account in the PAMM be removed from the PAMM account for any reason, my percentage of the trade will be adjusted to reflect the new equity/pl ratio.
